

TECHNOLOGY TOOLBOX

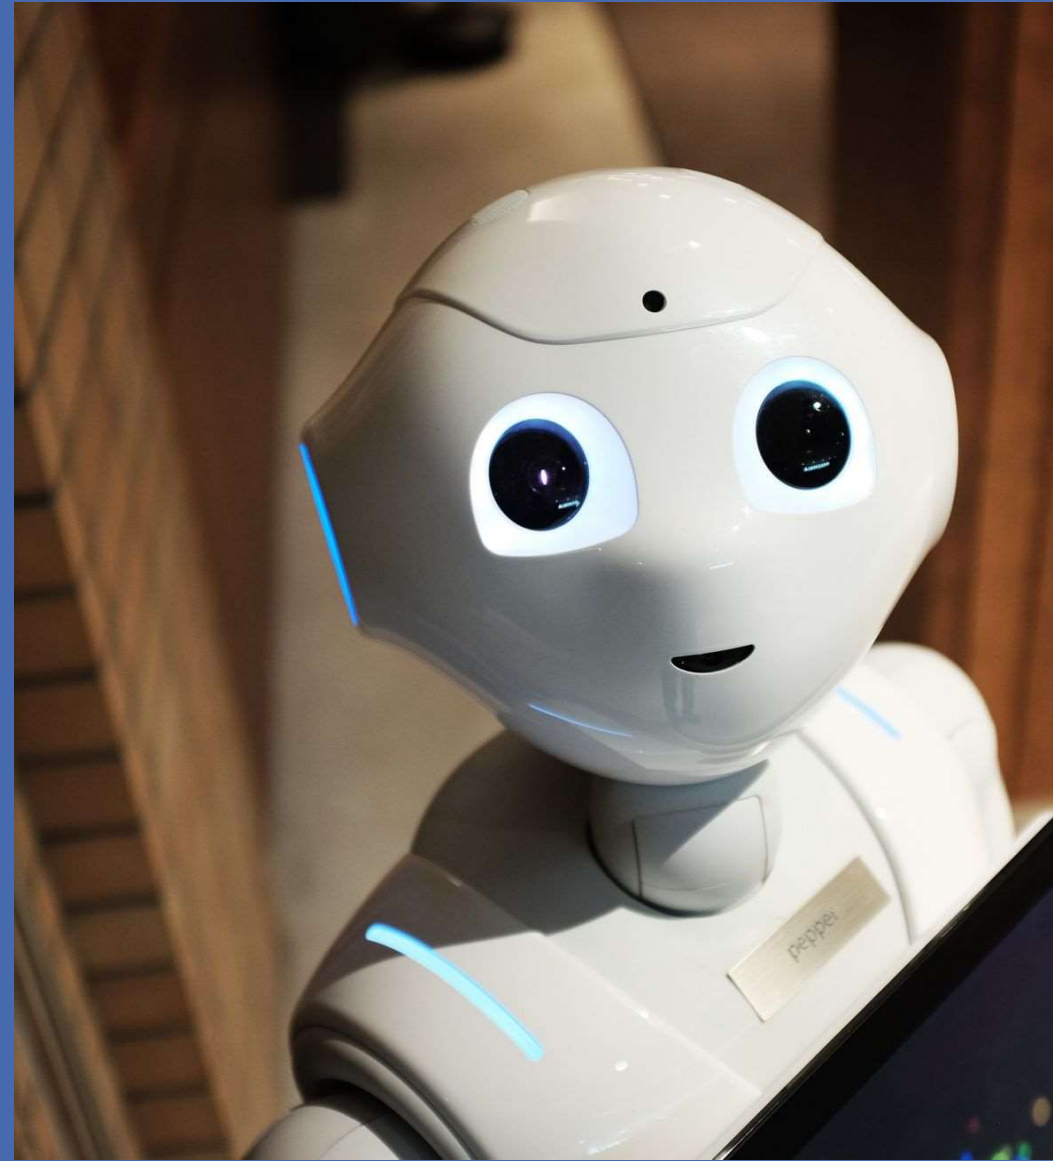

Up-to-date age-tech tools for supporting elders and their families

TECHNOLOGY TOOLBOX

- 1 Why is age-tech a critical part of the care manager's toolbox?
- 2 In what situations can age-tech impact clients?
- 3 What is in the Age-Tech Toolbox?
- 4 How does a care manager evaluate tech options for specific clients in specific situations?
- 5 How does a care manager stay up-to-date with ever-changing options?

SECTION 1

WHY IS AGE-TECH A CRITICAL PART OF THE CARE MANAGER'S TOOLBOX?

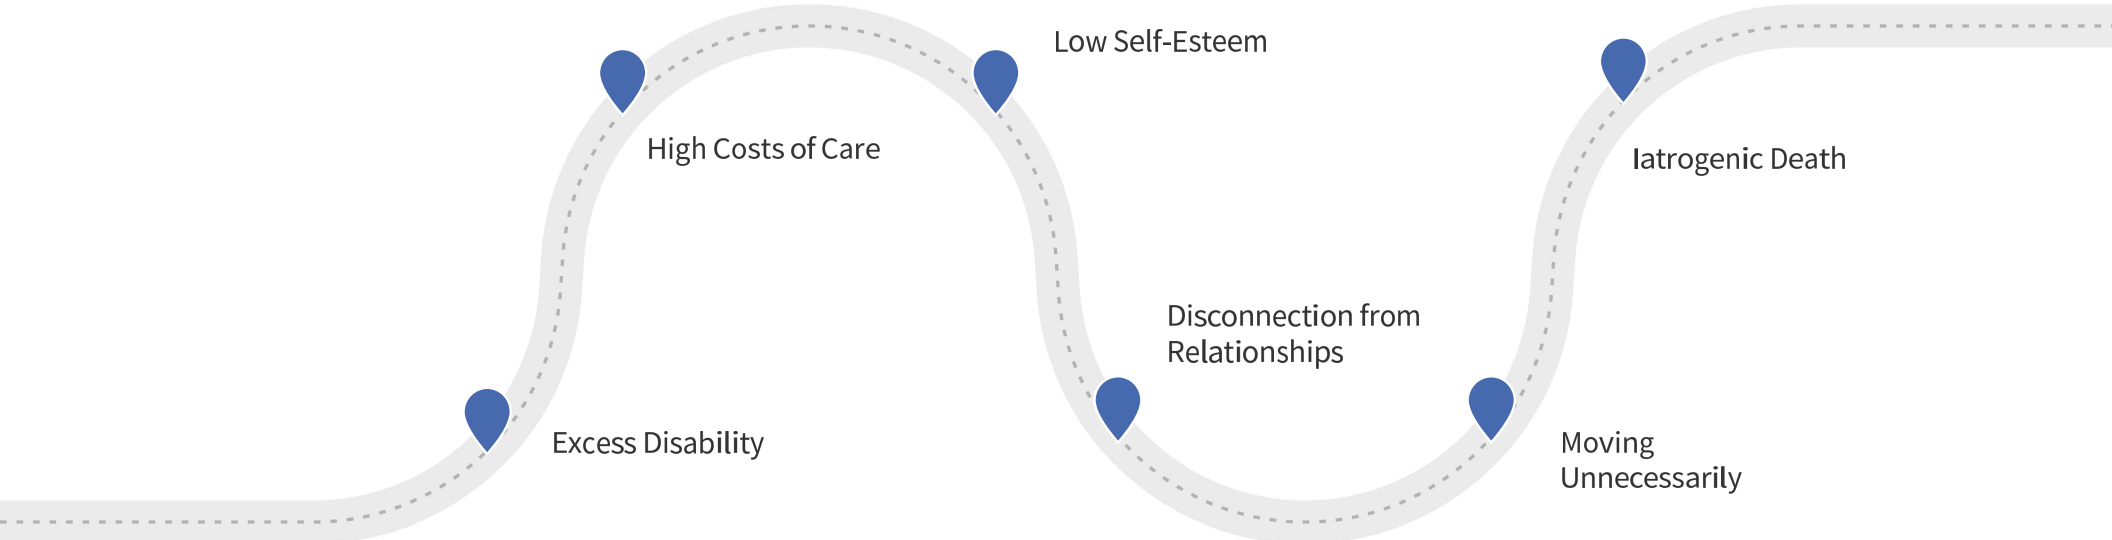

PARTICIPANT INTERACTION

**WHAT ARE SITUATIONS
YOU COMMONLY DEAL
WITH RIGHT NOW?**

PARTICIPANT INTERACTION

WHAT MIGHT BE
THE COST OF **NOT**
INTEGRATING AGE-TECH?

POTENTIAL COSTS OF NOT INTEGRATING AGE-TECH

Excess Disability

High Costs of Care

Low Self-Esteem

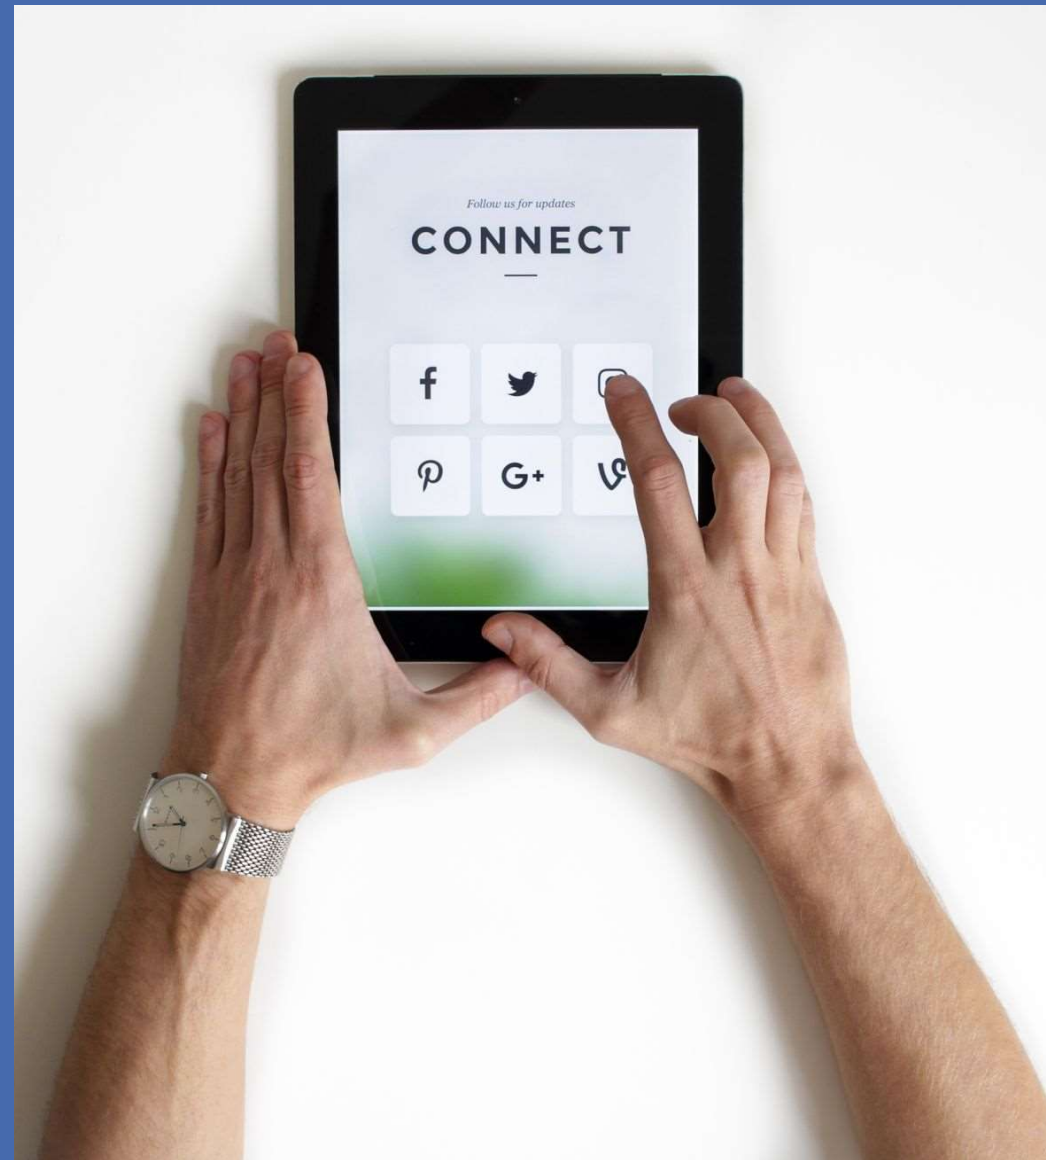

Disconnection from Relationships

Moving Unnecessarily

Iatrogenic Death

SECTION 2

IN WHAT SITUATIONS CAN AGE-TECH IMPACT CLIENTS?

AGE-TECH CAN HELP

**HELP US STAY
CONNECTED
AND FULLY
ALIVE**

**LIVE
INDEPENDENTLY
WHERE I
CALL HOME**

**HELP ME
SUPPORT MY
PARENT AT
HOME ALONE**

**REDUCE THE
AMOUNT OF
HOME CARE
I NEED**

AGE-TECH IS NOT READY

**I'M A DANGER
TO MYSELF**

**I CANNOT FOLLOW
VERBAL CUES**

**NO ONE CAN HELP
ME MANAGE THE
TECHNOLOGY**

Care Messages are like voicemail, only smarter.

Family and friends can record a series of short messages that speak directly to your loved one's needs, guided by our experts.

What makes our Care Messages smart?

Based on proven interventions

Record Care Messages with templates designed for cognitive stimulation and support.

The right message at the right time

Instant access to the right Care Message from a personalized library.

elovee calls your loved one

Schedule elovee to call and deliver Care Messages at any time.

**Mobile reader with app
used by the caregiver**

**Disposable moisture sensor tag
attached to OUTSIDE of any brief**

Smart Phone based or Dedicated Reader

*Dimensions: 4" long, 3/8" wide, thin & flexible
(approximately size of a small Band Aid)*

Designed to connect

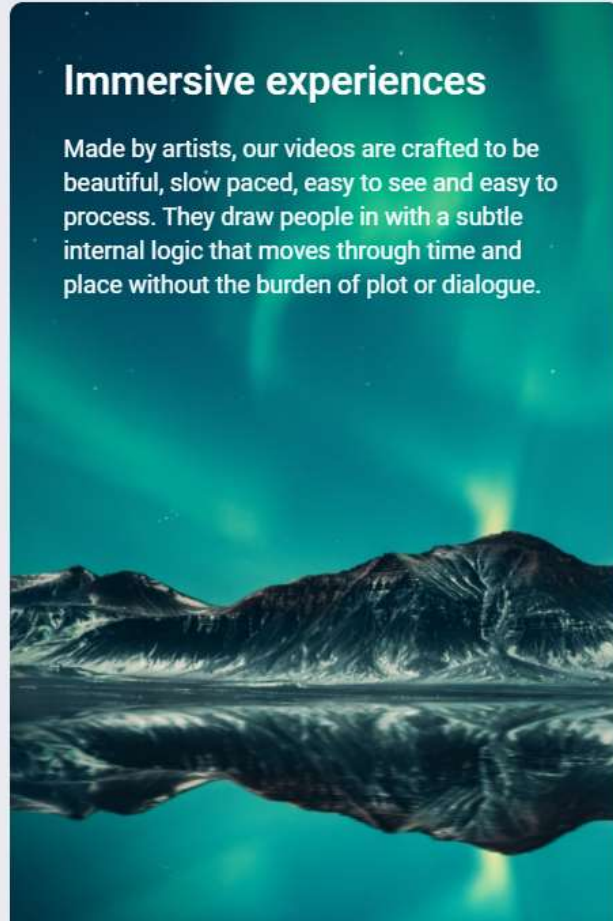

Meaningful recollection

Zinnia TV helps people stay connected to who they are, who they were, and what they love. Familiar topics, interests, locations and even sound effects enhance meaning, engagement and connection.

Immersive experiences

Made by artists, our videos are crafted to be beautiful, slow paced, easy to see and easy to process. They draw people in with a subtle internal logic that moves through time and place without the burden of plot or dialogue.

Deeper connection

Caregivers report that our videos can increase their connection with the people they support by providing insight into their interests and hobbies, as well as inspiring discussion, play, singing and laughter.

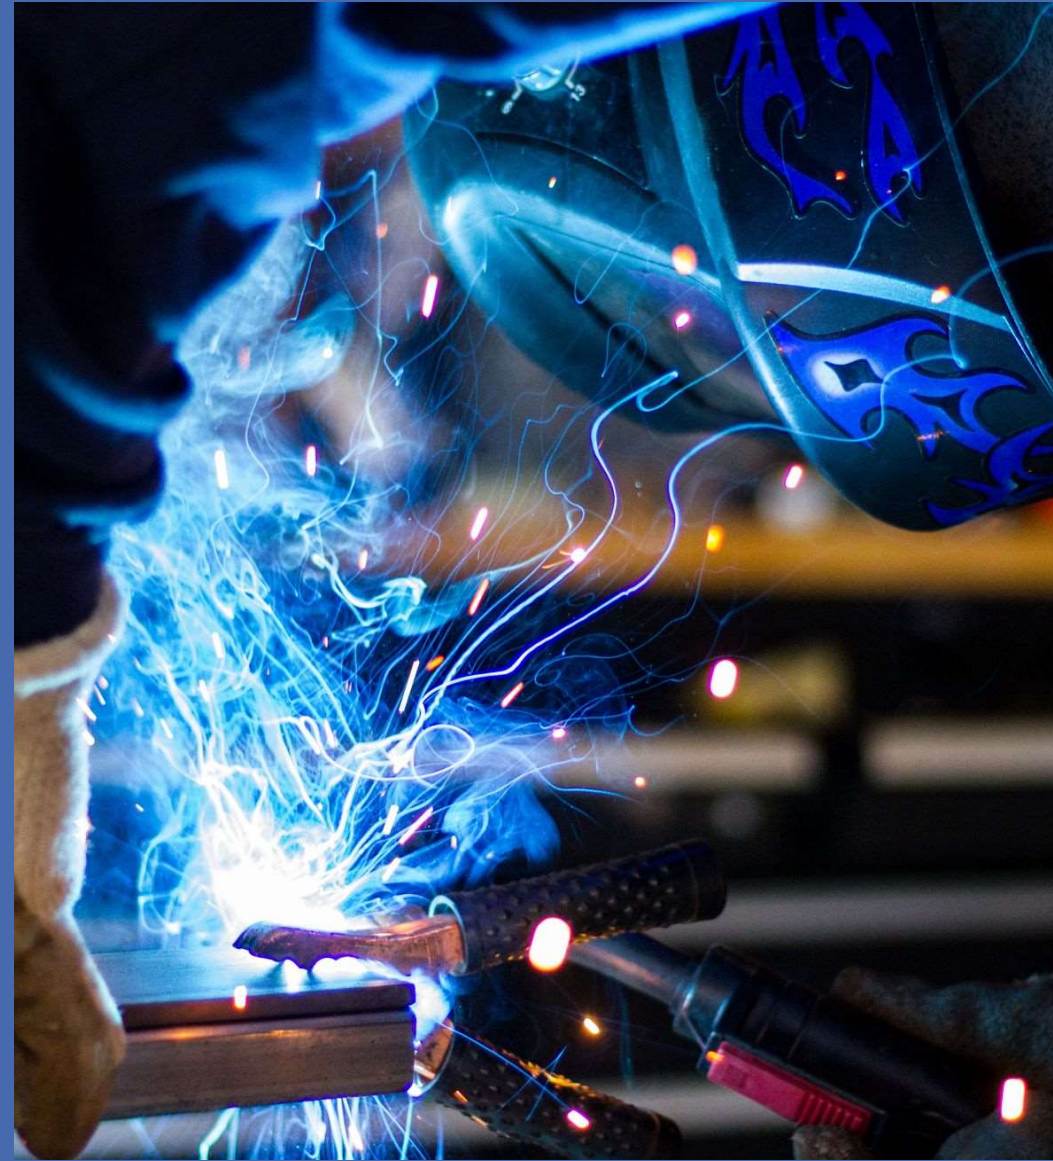

Simulated Presence Therapy

SPT can be an effective tool for soothing agitation and providing support when family members can't be present. Our Friendly Greetings videos are interspersed with comforting, uplifting messages that help alleviate loneliness.

SAFE LIFE

Seamless Connection

Our built-in WiFi, LTE capabilities simplify setup and data transfer, eliminating the headaches of traditional IoT heart health devices.

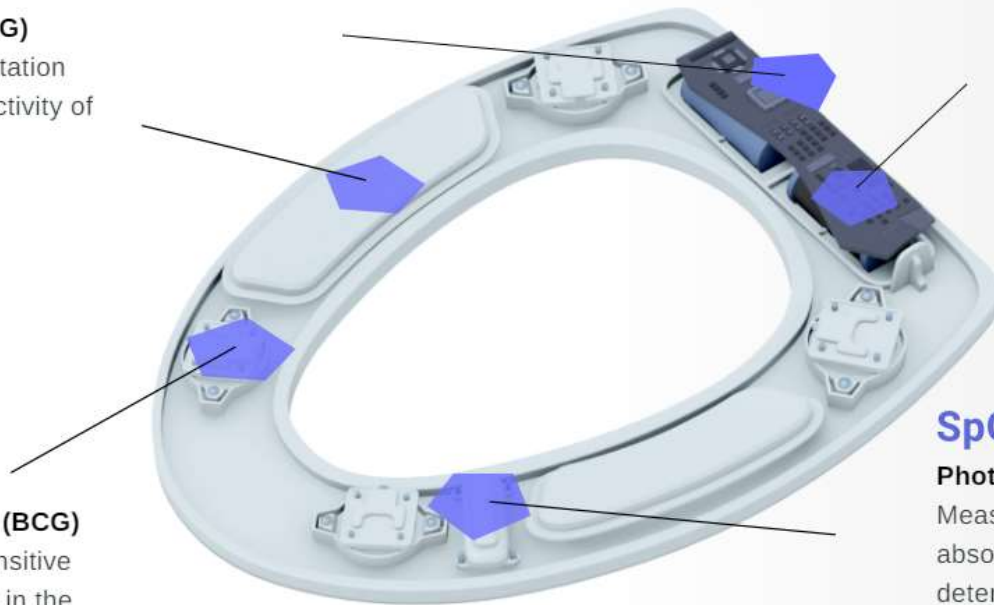

Electrocardiogram (EKG)

Clinical-grade instrumentation monitors the electrical activity of the heart.

Ballistocardiogram (BCG)

Innovative, hyper-sensitive load cells embedded in the seat's bumpers track the mechanical activity of the heart.

Internal Battery

No plug-in required. The Heart Seat's™ internal batteries have been built to last several years without re-charging.

SpO2

Photoplethysmogram (PPG)

Measuring changes in light absorption allows the seat to determine blood oxygenation and more.

How it works

Wear Siren Socks Daily

The socks continuously measure foot temperature, an early indicator of injury that may lead to ulcers.

Nurses Monitor Foot Health

Licensed nurses review the data for signs of inflammation and call patients regularly to check on their health.

Providers Manage Patient Care

Providers are alerted to potential injuries and determine if a clinic visit is necessary.

- ✓ Smartphone not needed
- ✓ Machine washable
- ✓ Socks replaced automatically when they wear down
- ✓ No need to charge
- ✓ Covered by Medicare

Theora Connect is a purpose-built smartwatch for older adults. Combined with the Theora Link smartphone app for caregivers, Theora Connect provides a complete remote monitoring and communications solution to keep families connected. With both the caregiver and loved one in mind our wristwatch isn't just a solution for family caregivers but designed with your loved one's user experience in mind. Communicate easily with our auto-answering feature, Quik Connect, to automatically connect without the user pressing a button to answer a call. Theora Connect provides a flexible solution for loved ones living independently, or in residential and care communities where busy staff aren't always available to assist.

- Enable older adults to live independently longer and stay in their home of choice
- Automatically connect with loved ones, without the assistance with staff or caregivers
- Proven solution for Alzheimer's, dementia, Autism, and other conditions

Zanthion detects falls based on prior motion/activity, the fall event, and your activity level immediately after the fall. If significant activity is not detected after the event, the system AUTOMATICALLY recognizes that you need more help and sends a critical fall alert to your registered family members, friends, caregivers, and health care providers. If nobody responds to the notification we escalate the event to a call center.

BUY FRANK FOR 66 CENTS A DAY

TRELAWEAR®

HOW IT WORKS

Location Data Sent

Every 5 minutes (10 min. Economy) GPS SmartSole uses cellular connectivity to send it's location updates to the GTX Corp Monitoring System.

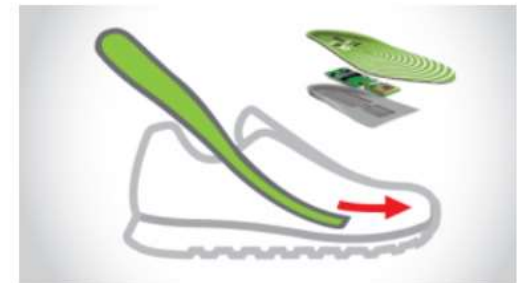

GTX Corp Monitoring

The location data is charted on a map that caregivers can access instantly through your online account or SmartLocator app.

Alerts Sent to You

The Monitoring System sends out geozone alerts via email and text message with link to the last known location.

Wearable Hidden Tracking

Apple & Android App Included

Text & Email Geozone Alerts

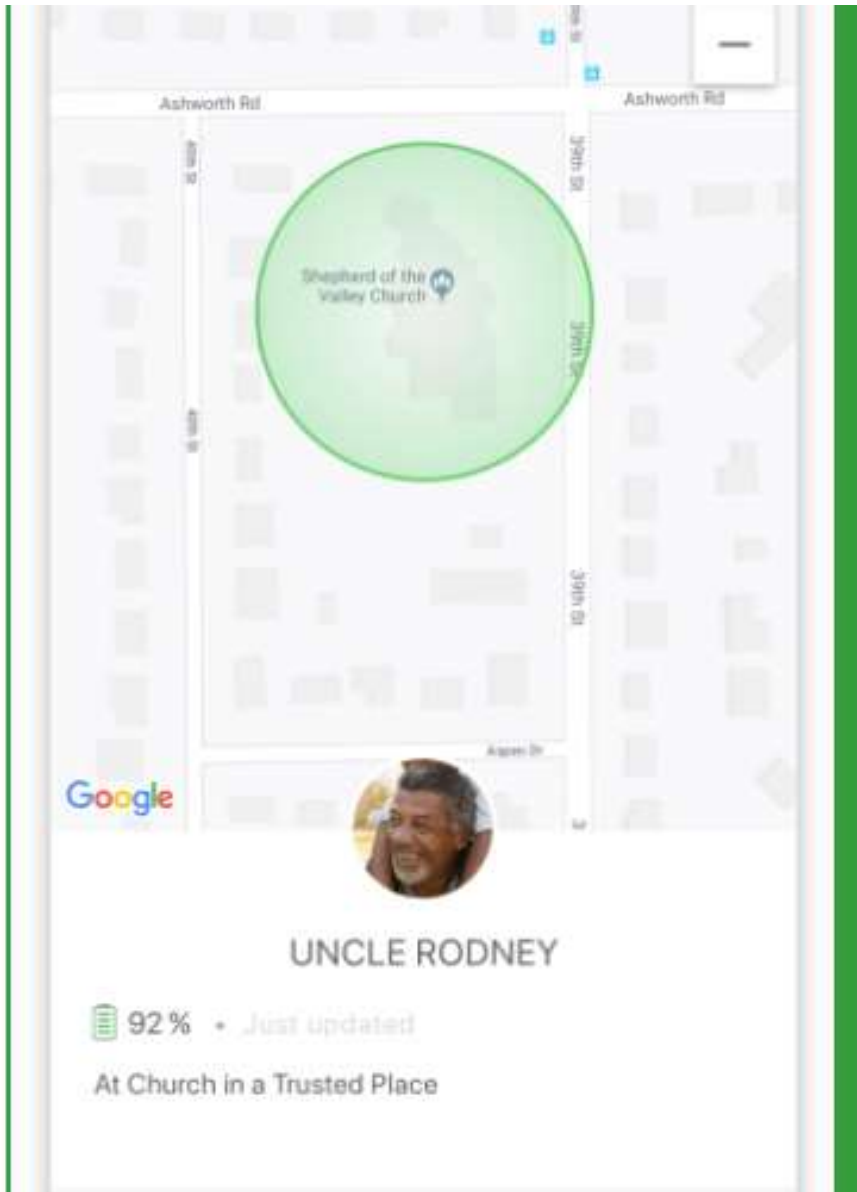

Jiobit is the smallest, long- lasting, real-time location tracker.

It is so small, we had to take a bite of this cookie just to prove it. And it's so light, we almost ate the tracker. Please don't eat your Jiobit.

[SHOP NOW](#)

Trusted Places

Get notifications when they come or go from any place you choose.

Perfect for keeping track and for keeping on track. Get an alert on your phone or every device in your Care Team to make sure your family rhythm doesn't miss a beat.

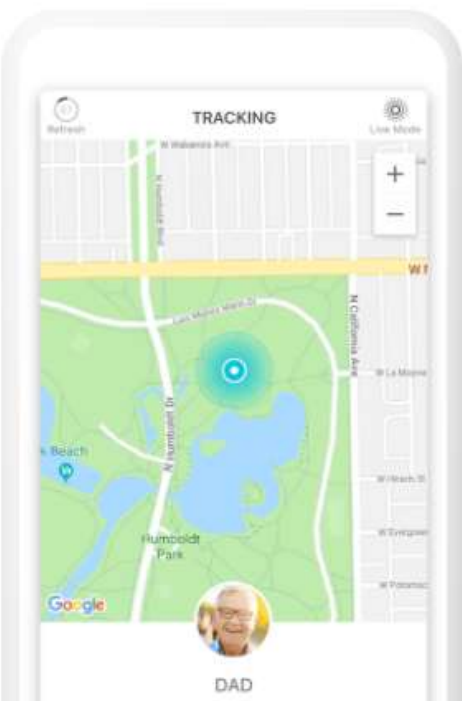

*Get Email & SMS Notifications with a premium in-app purchase

GET MORE WITH

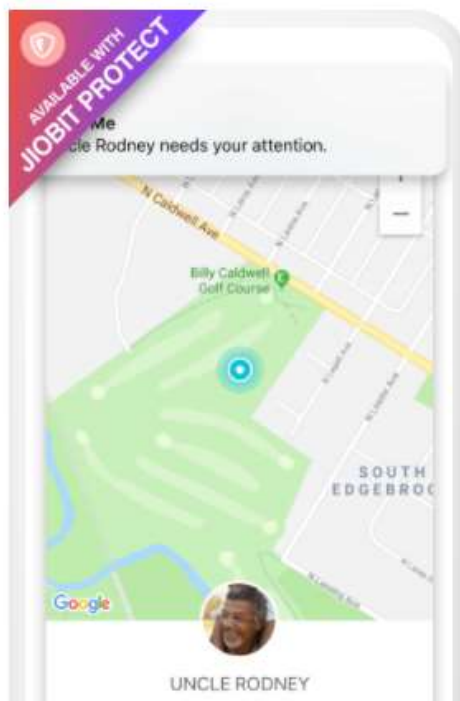

Check on your parents at any time.

Know exactly where mom or dad are and who they're with--no matter the distance.

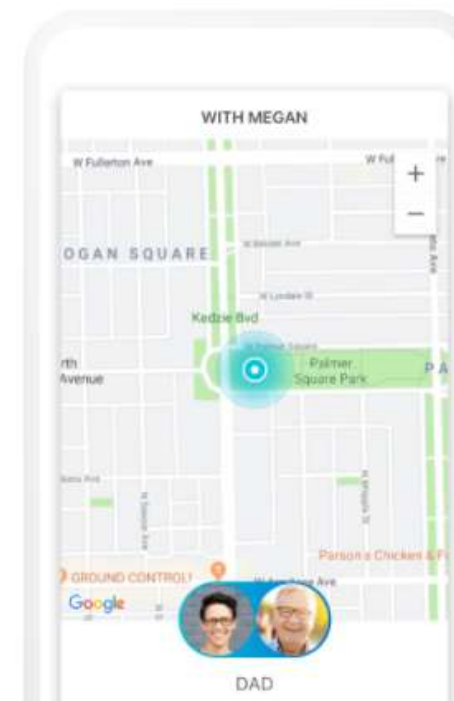

Real-time tracking at any distance

Time alerts about your parent's location no matter where they are or how far they are.

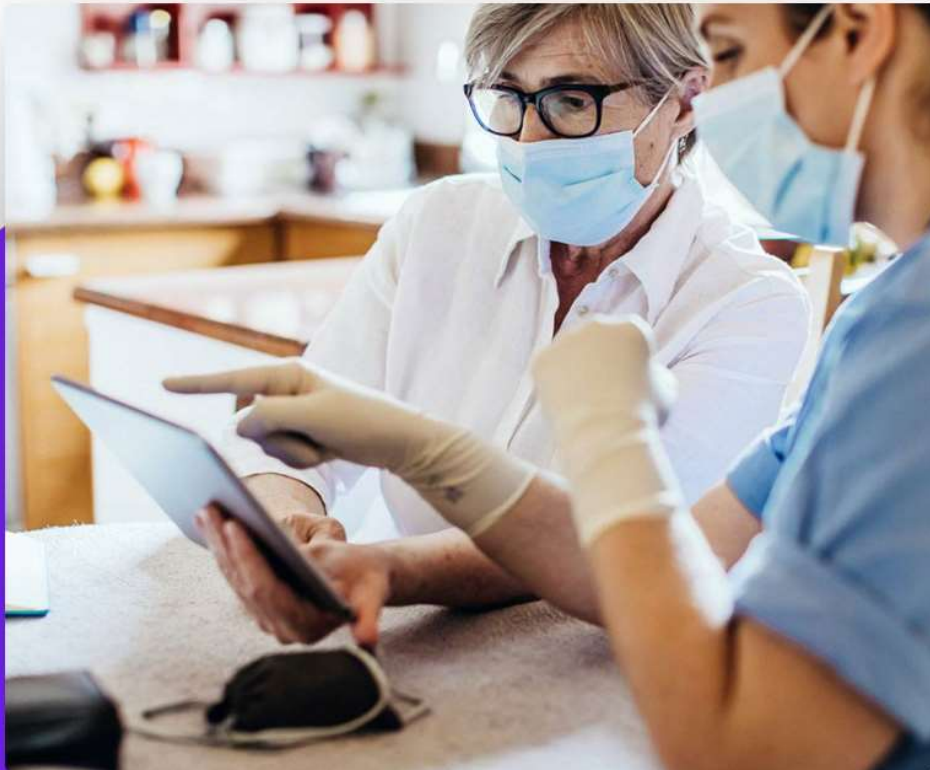

They can get your attention

With a simple click of the single button on the Jobit device, they can send an instant alert to you. (available as a premium in-app purchase)

Invite others to help give care

Add people to your Care Team, and they will get the and tracking capabilities.

About Us

Sensi is the world's first in-home virtual care agent, empowering long-term care providers to overcome some of the biggest challenges in the industry, and provide their customers with 24/7 support in a cost efficient and scalable manner, while significantly upping the quality of care. The Sensi platform leverages artificial intelligence to enable care agencies to offer 24/7 services, despite the massive shortage in caregivers, and regardless of any client's financial capacity to afford round-the-clock care.

How We Do It

EverSafe is easy to use and delivers unmatched protection for you, your family, and your clients. No other solution safeguards against scams, fraud, and identity theft better than EverSafe.

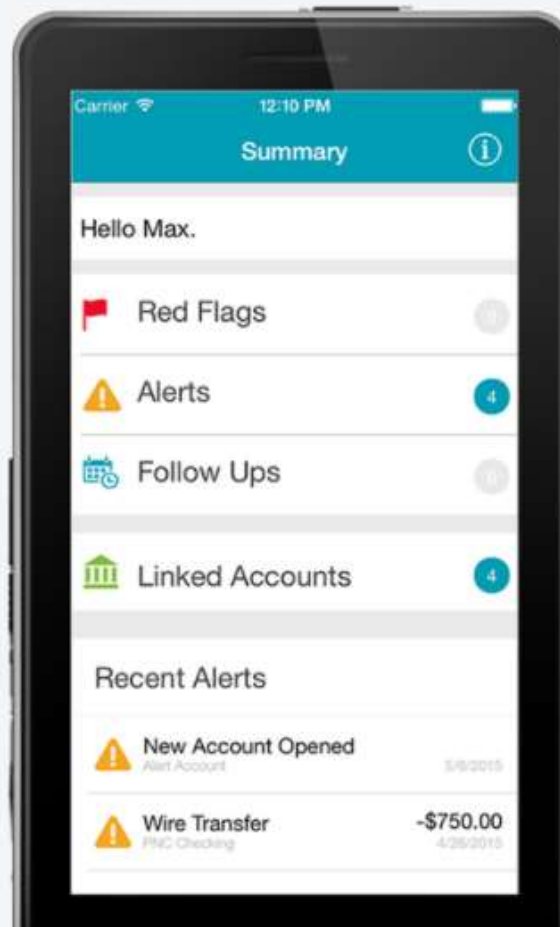

MONITORING WITH PERSONALIZED ALERTS

Our proprietary technology applies enhanced analytics to build a personal profile based on your financial history. When irregular activity is detected our personalized alerts make a real difference in identifying potential scams, fraud or identity theft.

CONSOLIDATED FAMILY DASHBOARD

EverSafe helps you stay on top of your family finances. All accounts. All institutions. All family members. All in one place. Extra bonus—notices about

AN "EXTRA SET OF EYES" FEATURE

According to experts, monitoring is the most critical tool for detecting scams, fraud, and identity theft. EverSafe enables you to designate family members, caregivers, or trusted professionals to receive alerts and assist in monitoring.

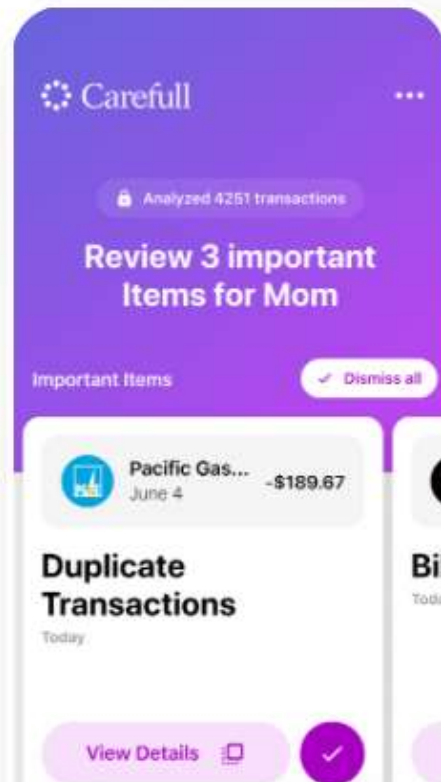

SPECIALIZED PROTECTION FOR SENIORS

Developed by experts in aging and fraud, EverSafe's enhanced algorithms provide deeper protection for seniors. Our age-friendly software supports

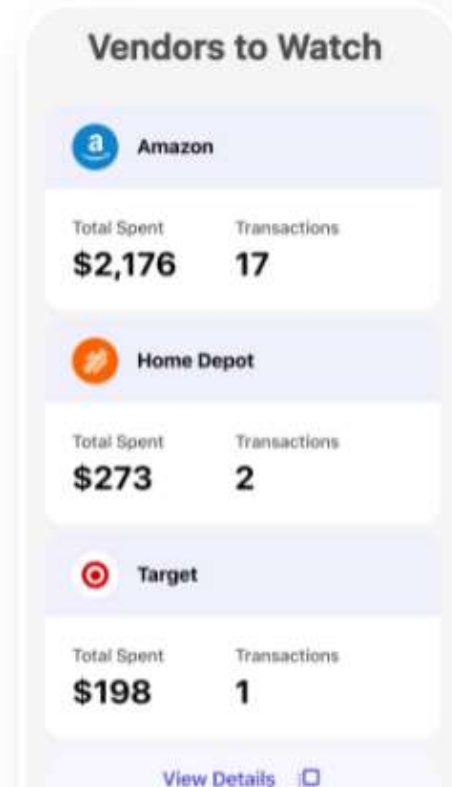

Get Alerts to Your Phone and Inbox

Carefull analyzes each transaction and movement, and alerts you to things that look fishy or like potential fraud.

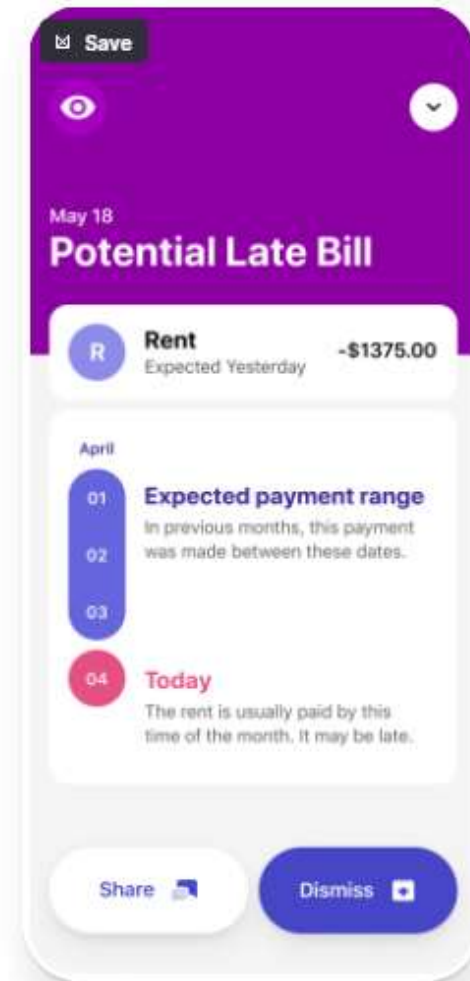

Catch Fraud and Strange Behavior

Sometimes it's not fraud, but odd behavior to know about: stores with large amounts of spending, unusual cash payments or transfers, or transactions involving new people or places that look different or suspicious. Know early.

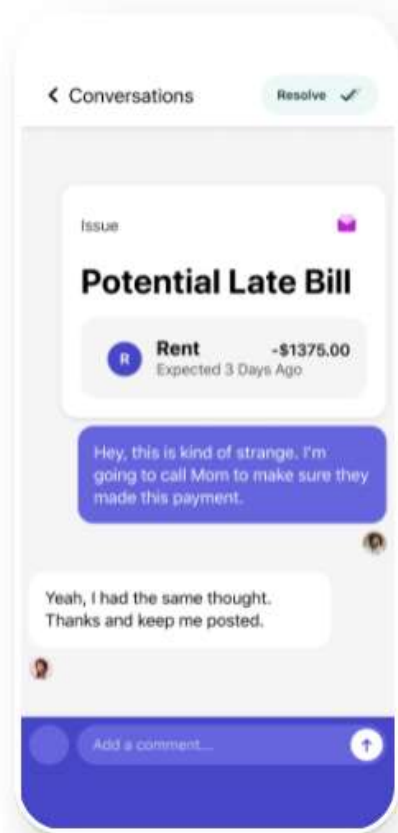

Identify Late Bills and Changes in Spending Patterns

Carefull's smart technology learns your loved one's unique spending and account balance patterns over time, so we can tell you what you need to know. Our industry-best team of experts have years of experience with all aging money matters – we know what to look for.

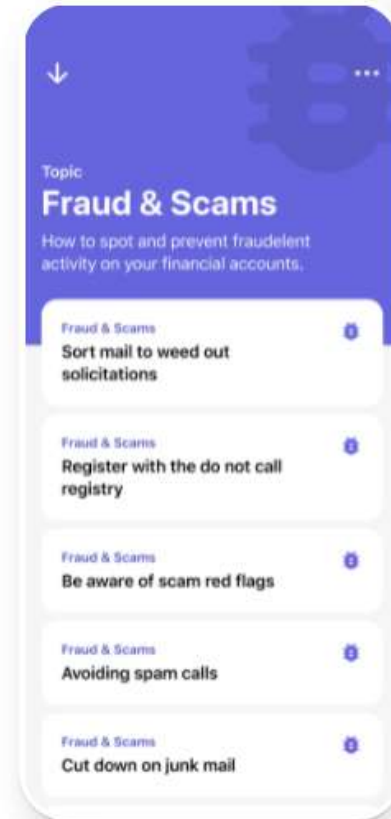

Coordinate With Your “Circle”

Use Careful to easily send and share alerts to those who need to be in the know. Let everyone see the same thing, and tough conversations get simple.

Get Guidance & Advice

Based on how it's going, you'll receive smart suggestions about what to do next, how to communicate and resolve issues, and how to plan the path forward.

Sprint

Innovative technology fighting scams

Eliminating robocalls

Technology instantly identifies robocalls before they reach your phone. We block all scam robocalls and send the legitimate doctor appointment reminders, to your phone.

In-call scam alerts

When talking to someone who is not on your contact list, Elefend's software can analyze the call in real-time, to your choice. If a potential scam is detected, an audible alert only you can hear will be played, warning you not to give away any personal information.

Trusted contact

Some of these calls can be confusing. If you are not sure whether a call is legit, you have an option to automatically add to the call 'trusted contact', like a family member or friend, to make sure this is not a scam.

And using the same voice to text engine.
Which just so you know is literally a building full of
servers over in Microsoft headquarters.
We understand this is a serious issue for you guys.
And that the shutdown of capital is a real
challenge.
We are going to modify our existing product.
Which already helps many people with hearing
loss.
We're going to add features that the capital uses
need.
The first step is to prove that computer ized voice
to text works.

FamilyJam

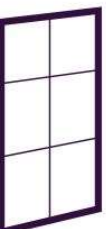

Keep seniors connected with their families

FamilyJam sets up spontaneous land-line phone calls between seniors and their family members, *automagically*

Get Started

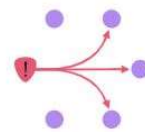

It's hard to remember to call everyone

But sometimes our family members are isolated, lonely and need us, especially during the COVID-19 pandemic

FamilyJam starts the party in two ways

Smart Matching

Ask to Call

Getting started is easy

All you need to do is enter your familys phone numbers, no app is needed

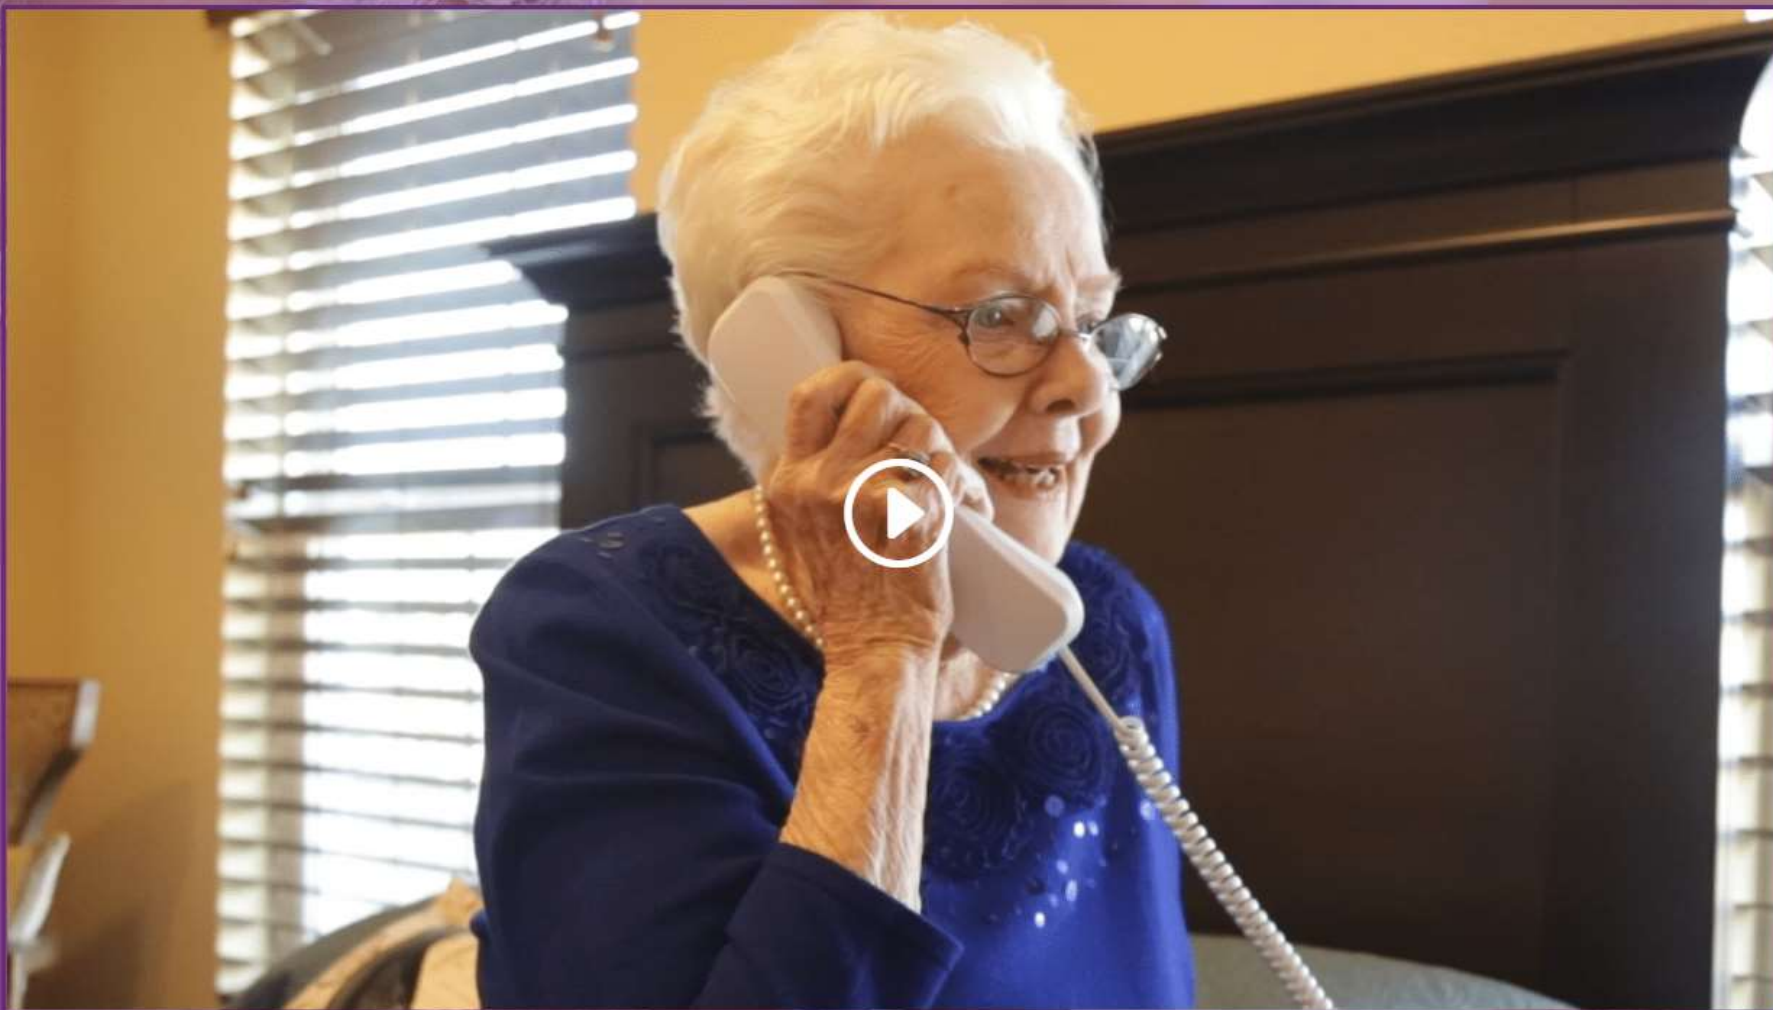

Get your family jamming today

Lets get the party started 😊

When the phone rings, you can trust it will be a good call

Here's what our customers have to say

Benefits

Curb Repeated Dialing

Stop multiple outgoing calls in a short time period.

Quiet Hours

Set custom quiet hours to manage incoming and outgoing calls.

Phone Scam Protection

Blocks ALL known scammers and telemarketers.

Enhanced Call Blocking

Only approved callers are allowed to ring through.

Outgoing Call Filtering

Prevent outgoing calls to TV shopping and other ads.

911 Notifications

Immediate notifies family via text message if 911 is called.

911 Re-Routing

Curb inappropriate 911 calls by routing them to memory care & assisted living staff.

Caregiver App

Family caregivers manage service remotely, review call history and voicemail.

No Internet Required

No existing phone or internet service is required.

Use Existing Telephone

Works with your favorite corded or cordless home telephone.

teleCalm EssentialsSM

Never miss a dose

An automated medication dispenser that lets you focus on what matters most in life, removing the stress and tension of worrying about managing pills – or nagging over them.

- Deliver medication on time, as scheduled
- PIN code or face recognition verification
- Record when doses are taken or missed

Alert your care circle when doses are missed

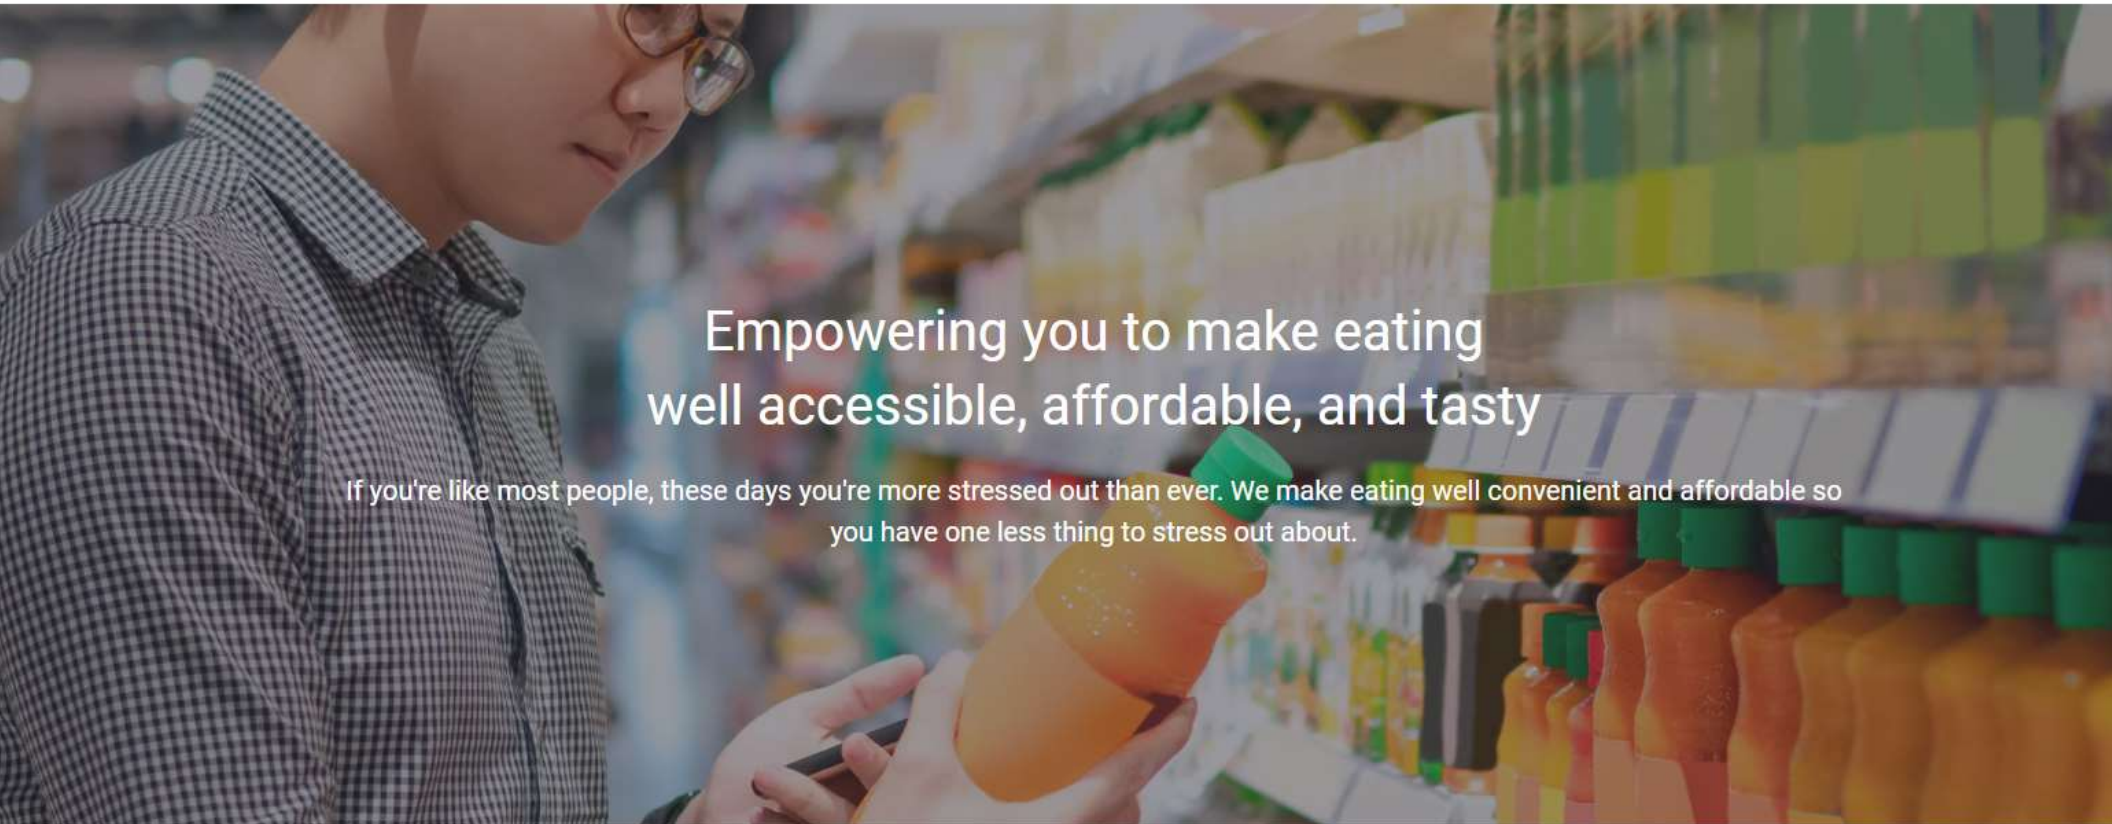

Peace of mind

Pria keeps families and friends connected with scheduled and impromptu check-ins, so you know your loved ones are safe and healthy.

- Two-way video calling to Pria
- Mobile alerts
- Custom reminders to drink water or go for a walk
- Monitor medication adherence

Empowering you to make eating well accessible, affordable, and tasty

If you're like most people, these days you're more stressed out than ever. We make eating well convenient and affordable so you have one less thing to stress out about.

This could be your success story too

Foodsmart Success Stories: Kelly

FoodsMart: Making eating well convenient & affordable

Our online food market is unlike any other - it is customized for you based on being FoodSmart. It adjusts based on your meal plans, Nutriscore insights, and recommendations from your Registered Dietitians. Your personalized meal plans and recipes are all synced with top grocers and prepared meal partners to maximize your savings, optimize your health, and save you time planning and shopping for groceries.

- ✓ Integrated grocery ordering with Walmart, Amazon Fresh, and Instacart
- ✓ Thousands of recipes, customized to you
- ✓ Healthy prepared meals through Sunbasket and Plantable
- ✓ Integrated meal delivery or pickup through Grubhub
- ✓ CookItNow to find quality recipes based on ingredients already on hand
- ✓ Grocery list synced with your meal planning and recipes
- ✓ Restaurant guidance to help you eat well while out
- ✓ Deals at local grocery stores customized to you
- ✓ Create your own "cookbook" from your favorite recipes

About Us

Sensi is the world's first in-home virtual care agent, empowering long-term care providers to overcome some of the biggest challenges in the industry, and provide their customers with 24/7 support in a cost efficient and scalable manner, while significantly upping the quality of care. The Sensi platform leverages artificial intelligence to enable care agencies to offer 24/7 services, despite the massive shortage in caregivers, and regardless of any client's financial capacity to afford round-the-clock care.

Jelly Drops USA

Following our launch in 2020, we've been overwhelmed by the reception that Jelly Drops have had and humbled by the great interest we've received from around the world.

Now, our priority is to start shipping to the US! We are working hard to make this happen and aim to have Jelly Drops available for customers in the United States in the second half of 2021.

If you are interested in being the first to be able to get Jelly Drops in the United States - sign up to our mailing list to be notified when early-access packs are available.

SECTION 4

HOW DOES A CARE MANAGER EVALUATE TECH OPTIONS FOR SPECIFIC CLIENTS IN SPECIFIC SITUATIONS?

EVALUATING AGE-TECH FOR “FRIENDSHIP”

1 I can navigate a tablet or smartphone with my fingers.

2 I can navigate a tablet by voice.

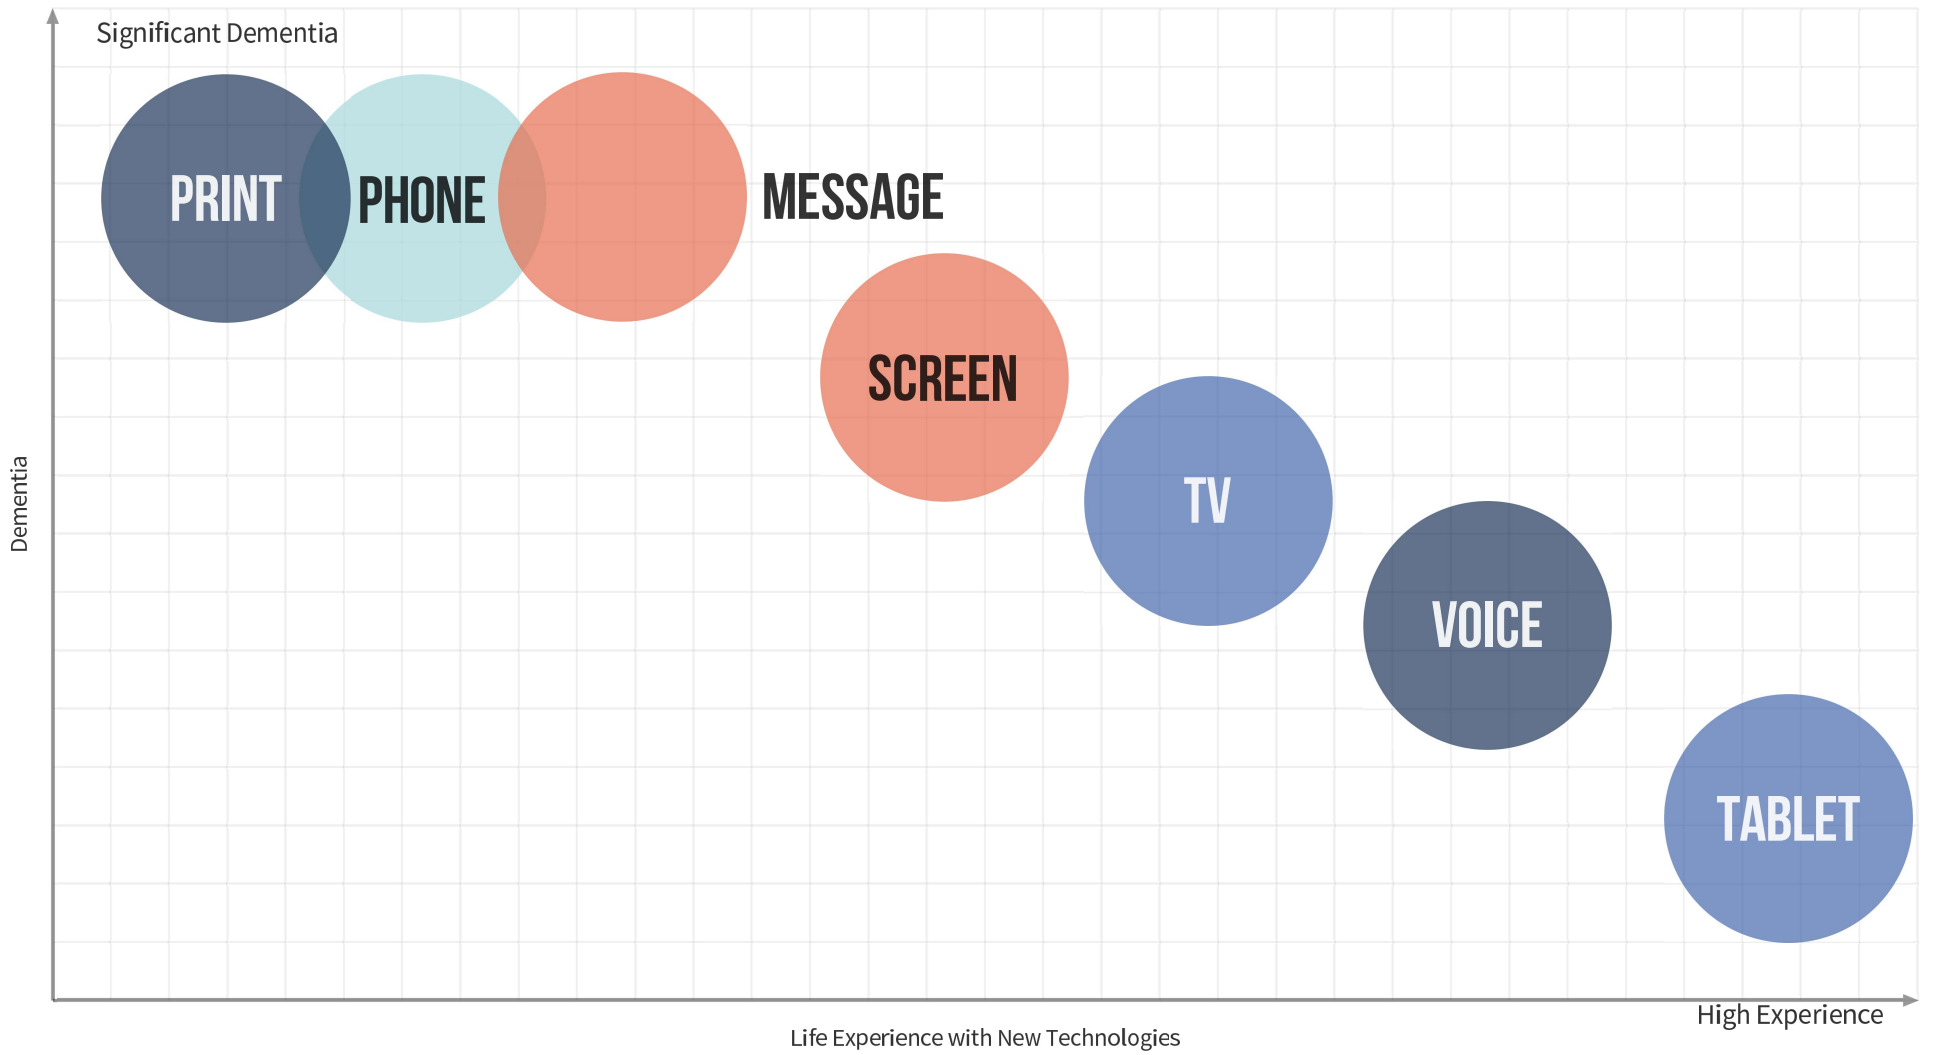

3 I can navigate a TV with a remote.

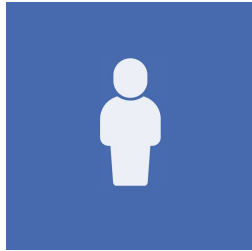

4 I can push 1-2 buttons on a screen.

5 I can answer a phone.

6 I can read or look at printed photos.

7 I can receive messages that play automatically.

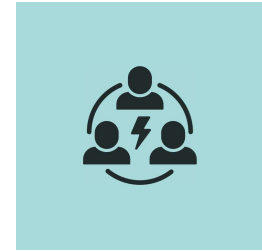

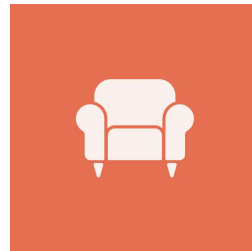

How often are helpers present?

How tech savvy are helpers?

How engaged and driven are family and friends?

Where will interaction take place?

How foolproof does it need to be?

“ I LIVE IN A SINGLE STORY HOME BY MYSELF. MY BACK PAIN IS MAKING IT HARD TO DO MUCH. I FEEL LONELY AS I CANNOT DRIVE TO THE CAFE TO SEE MY FRIENDS. I DON'T HEAR FROM MY FAMILY MUCH AS THEY ARE SO BUSY.

I WET MY BED FREQUENTLY; IT'S SO HARD TO CLEAN UP. MY MEDICATIONS ARE GETTING COMPLICATED. SHOULD I MOVE?

I DON'T KNOW HOW TO USE ONE OF THOSE NEW IPHONES OR IPADS. ”

Fred St. James

PARTICIPANT INTERACTION

**WHAT TECH WOULD
YOU RECOMMEND?**

“ MY MOTHER-IN-LAW LIVES BY HERSELF. SHE HAS WONDERED AWAY FROM HOME A COUPLE OF TIMES. NEIGHBORS FOUND HER.

I WORK FULL TIME. I DON'T KNOW IF SHE IS GETTING HER MEDS ON TIME OR IF SHE IS EATING ENOUGH EVEN THOUGH I BRING HER FOOD. I'M WORRIED SHE'LL TURN SOMETHING ON AND LEAVE IT.

SHE SPILLS FOOD OFTEN DUE TO HER HAND SHAKING MORE AND MORE. MAYBE PARKINSON'S?

SHE BUYS SO MUCH JUNK AND DOESN'T HAVE A LOT IN SAVINGS. SHE CALLS MY HUSBAND 30 TIMES A DAY! DO I NEED TO GET HOME CARE IN THE HOME NOW? ”

Clara Trisha

PARTICIPANT INTERACTION

**WHAT TECH WOULD
YOU RECOMMEND?**

Agetech News: No. 11

The rise of virtual care management, a medical home-visit arms race, and the other 40 Agetech deals this quarter...

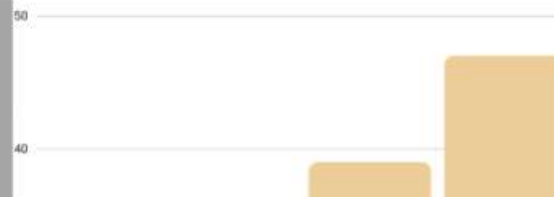

Max Zankow

Apr 13 2

Hi again,

This newsletter was a tough one to get out. Not because of COVID-19, which it finally seems the U.S. is getting under control, but because there were an all-time high of **47 deals this quarter**. As you can see below, deal volume has been increasing rapidly over the past year with a growth rate of over 160% year-over-year.

**47 DEALS
IN Q1 2021**
